Canutillo Independent School District

Canutillo Middle School

2018-2019 Improvement Plan

Accountability Rating: Met Standard

Distinction Designations:

Academic Achievement in English Language Arts/Reading
Academic Achievement in Mathematics
Academic Achievement in Science
Academic Achievement in Social Studies
Top 25 Percent: Comparative Closing the Gaps
Postsecondary Readiness

Board Approval Date: September 25, 2018

Mission Statement

The faculty and staff of Canutillo Middle School will empower students to be the motivational force behind their own future success by modeling citizenship, leadership, and a desire for lifelong learning.

Vision

A culture of academic excellence built on collaborative leadership and innovative instruction at Canutillo Middle School will produce accomplished scholars and community leaders able to meet future challenges of an evolving global society.

Core Beliefs

Culture of Excellence

Student Centered

High Expectations

Accountability

Transparency

Overall, we as a campus have increased in enrollment, in areas of LEP, SPED and AT risk. S{ED increased the most due to the addition to two SPED units: ISC and LSC III. LEP, grade 6 for this current school year is much larger than previous grade 6 classes. Despite the incrase in these areas, the campus works with ALL students to assist to exit student's to the mainstream. Areas that need improvement are more materials and resources accessible to the inclusion teacher to serve these students. Even though data shouws success, the coampus would like to make sure the student's needs are met with high quality instruction.

Demographics Strengths

As a middle school campus our enrollment has increased each year.

There has been an increase in enrolling for STEAM opportunities.

Despite increase in subgroups as a campus we include all and assist to exit students from the following: LEP, SPED, At risk to increase maintream

population.

Problem Statements Identifying Demographics Needs

Problem Statement 1: Increase in enrollment; increase in special populations Root Cause: Boundary line restructuring

Problem Statement 2: Teachers are not prepared to effectively teach STEM/STEAM strategies **Root Cause**: Lack of teacher training and staff development

Student Academic Achievement

Student Academic Achievement Summary

Overall, CMS is trending in the positive direction with PBL and STEAM. STAAR data within the last 3 years has shown positive trends for grade 6-8 Math and grade 7 Writing. Grade 8 Science and grade 6-8 Reading has been stable with little or no growth. The positive trends can be attributed to the following: Response to Intervention(RtI) program has seen strong results in tested subjects and overall, SPED and LEP populations saw a positive increase in tested subjects; Strong teacher collaboration across the campus; Writing inverventions with the 11-minute essay, UTEP workshops; and alignment within Math, ELAR, and Science departments when it comes to planning and lesson delivery. CMS will continue to focus on reaching high mastery levels and in our special populations.

Student Academic Achievement Strengths

Response to Intervention(RtI) program has seen strong results in tested subjects. As a result SPED and LEP populations saw a positive increase in tested subjects.

Math and ELAR interventions within Mentoring Minds program have seen positive results.

Strong teacher collaboration across the campus.

Writing inverventions with the 11-minute essay, UTEP workshops

Project Based Learning across contents

Alignment within Math, ELAR, and Science departments when it comes to planning and lesson delivery.

Problem Statements Identifying Student Academic Achievement Needs

Problem Statement 1: ELL student population continue to struggle on STAAR/TELPAS in reading, writing, and oral fluency **Root Cause**: Continual academic gaps developed from elementary school and 6th grade

Problem Statement 2: Teachers struggle with differentiation of instruction for ELL, SPED, and GT students. **Root Cause**: Lack of teacher training and staff development

School Processes & Programs

School Processes & Programs Summary

As a campus, Canutillo Middle School has continued to provide all learners with a rigorous 21st century learning experience by integrating Science, Technology, Engineering, Arts, and Math (STEAM) into a hands-on learning approach. At CMS the faculty and staff are preparing students to be successful in the real world by implementing STEAM initiatives which supports the instructional program where students apply their learning to real-world contexts within the framework of Project/Problem-Based Learning (PBL) experience. Project Based Learning is a common practice across all contents and has proven to have a positive effect on student content knowledge and the development of skills such as collaboration, critical thinking, and problem solving. Writing across ALL contents could be seen on a daily basis at CMS through quick writes, journal writing, note taking, research projects, and real world writing. Finally, in order to reach all our students, the Response to Intervention(RtI) program has seen strong results in tested subjects by having a team of faculty members come together every 9-weeks to review student data and determine best practices to improve student learning. As a result of implementation our SPED and LEP populations have had positive increase in tested subjects. CMS is building momentum in the right direction with many campus initiatives in order to boost student performance. We continue to grow and develop new methods of teaching to reach all our students.

School Processes & Programs Strengths

- -STEAM academy initiatives which supports the instructional program where students apply their learning to real-world contexts within the framework of Project/Problem-Based Learning (PBL) experiences.
- -Writing across ALL contents through quick writes, journal writing, note taking, research projects, and real world writing has contributed to student growth
- -Project Based Learning across contents has had a positive effect on student content knowledge and the development of skills such as collaboration, critical thinking, and problem solving
- -Response to Intervention(RtI) program has seen strong results in tested subjects. As a result SPED and LEP populations saw a positive increase in tested subjects.

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: STEAM (PLTW) program lacks materials/resources Root Cause: Program is very expensive and materials need to be purchased

Problem Statement 2: Science department needs STEM Scopes to further accelerated instruction, project based learning and classrom interventions. **Root**Cause: Students and teachers do not have sufficient technology to provide high-quality differentiation Science education

Problem Statement 3: ELAR and Social Studies departments need Chromebooks **Root Cause**: Departments need access to their own chromebooks to futher PBLs in classrooms.

Problem Statement 4: Students struggle with nonfiction texts on state assessments Root Cause: ELAR department lacks nonfiction books/class sets

Perceptions

Perceptions Summary

Overall, Canutillo Middle School is moving in the right direction as it continues to build a strong campus culture. The strength at CMS lies in the fidelity of the PBIS committee, a strong partnership with the Parent Teacher Organization (PTO), building leadership capacity with the 6th graders, and a strong counseling department. The PBIS committee is very involved in creating a positive culture at CMS. PBIS is involved with various incentives across the school such as, students are recognized for show good character, GRIT, grades, behavior and other qualities by teachers. Those students are then referred to the principal for a positive referral. The Parent Teacher Organization is the backbone of the campus. This organization provides students with various opportunities to be successful. The PTO provides incentives and rewards for the students at various times in the school year. They are also very involved in working with our teachers and staff at various capacities on a daily basis such as decorating the hallways with student work and help monitor the school whether its during transition or at the end of day with traffic and cross guard duty. Our 6th graders are not bystanders by any means. They are not waiting to become 7th graders to participate in sports and other activities. This grade level has high participation in Attendance, Academic UIL events, OKEs, STUCO, and NJHS. Finally, the counseling department makes a direct point of contact with every single disciplinary ISS referral. Counseling is provided to all students who are referred to ISS and/or DAEP. Counseling is provided at various times to bridge our students's understanding of their choices. Besides disciplinary involvement, our counselor is very proactive in reaching our students at various times such as taking the lead to educate our students with bullying. It takes a village to run CMS and there's an incredible one here.

Perceptions Strengths

- -PBIS: This committee is very involved in creating a positive culture at CMS. PBIS is involved with various incentives across the school such as, students are recognized for show good character, GRIT, grades, behavior and other qualities by teachers. Those students are then referred to the principal for a positive referral.
- -Attendance: CMS is very competive with attendance. Overall, students are coming to school almost at a 97% rate.
- -Parent Teacher Organization/Parent Liason: Parents are the backbone to the campus. This organization provides students with various opportunities to be successful. PTO provides incentives and rewards for the students at various times. They are also very involved in working with our teachers and staff at various capacities on a daily basis.
- -6th grade involvment: 6th graders are not bystanders as they are not waiting to become 7th graders to participate. Grade level has high involvement in UIL,

OKEs, STUCO, NJHS...

-Counselor Involvement: Counselor makes a point of contact with every single ISS referral. Counseling is provided to all students who are referred to ISS. Besides disciplinary involvement, our counselor is very proactive in reaching our students at various times such as taking the lead to educate our students with bullying.

-DAEP Transition: Students retuning form DAEP are transitioned back into the regular setting by having strong support from counselor. Students are provided with a couple of days to transition into the mainstream setting at CMS.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: The community needs to be more informed with what is happening at the school good and bad. Our website needs to be updated and more accessible for the community. **Root Cause**: Parents are not aware of what is happening at the campus level. CMS needs to provide various opportunities to reach families such as sending newsletters, updating website, using social media often, and expand the reach by uising the application called Remind to registration process to reach parents.

Problem Statement 2: Increase PTO involvement. **Root Cause**: PTO needs to grow in numbers. Male presence also needs to increase to provide support for our male students.

Problem Statement 3: CMS needs to build a better foundation for incoming 6th grade students and parents. **Root Cause**: Provide a thorough orientation for incoming 6th grade students and parents. Provide tours to parents and explain in detail the academic and behavior expectations.

Priority Problem Statements

Problem Statement 1: Increase in enrollment; increase in special populations

Root Cause 1: Boundary line restructuring
Problem Statement 1 Areas: Demographics

Problem Statement 2: Teachers are not prepared to effectively teach STEM/STEAM strategies

Root Cause 2: Lack of teacher training and staff development

Problem Statement 2 Areas: Demographics

Problem Statement 3: ELL student population continue to struggle on STAAR/TELPAS in reading, writing, and oral fluency

Root Cause 3: Continual academic gaps developed from elementary school and 6th grade

Problem Statement 3 Areas: Student Academic Achievement

Problem Statement 4: Teachers struggle with differentiation of instruction for ELL, SPED, and GT students.

Root Cause 4: Lack of teacher training and staff development
Problem Statement 4 Areas: Student Academic Achievement

Problem Statement 5: Social Studies decreased by 9% and has not seen any positive growth in the past 3 years.

Root Cause 5: Staffing was an issue with tested grade level

Problem Statement 5 Areas: Student Achievement

Problem Statement 6: Teachers need appropriate PBL training and time to truly plan

Root Cause 6: Some departments need more training in PBL

Problem Statement 6 Areas: Student Achievement

Problem Statement 7: Science department needs STEM Scopes to further accelerated instruction, project based learning and classrom interventions.

Root Cause 7: Students and teachers do not have sufficient technology to provide high-quality differentiation Science education

Problem Statement 7 Areas: School Processes & Programs

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus goals
- Current and/or prior year(s) campus and/or district improvement plans
- Campus and/or district planning and decision making committee(s) meeting data
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Domain 1 Student Achievement
- Domain 2 Student Progress
- Domain 3 Closing the Gaps
- Effective Schools Framework data
- Federal Report Card Data
- PBMAS data

Student Data: Assessments

- State and federally required assessment information (e.g. curriculum, eligibility, format, standards, accommodations, TEA information)
- State of Texas Assessments of Academic Readiness (STAAR) current and longitudinal results, including all versions
- STAAR EL Progress Measure data
- Texas English Language Proficiency Assessment System (TELPAS) results
- Student Success Initiative (SSI) data for Grades 5 and 8
- SSI: Istation Indicators of Progress (ISIP) accelerated reading assessment data for Grades 3-5 (TEA approved statewide license)
- SSI: Think Through Math assessment data for Grades 3-8 and Algebra I (TEA approved statewide license)
- Local benchmark or common assessments data
- Student failure and/or retention rates
- Running Records results
- Observation Survey results

Student Data: Student Groups

• Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group

- Economically Disadvantaged / Non-economically disadvantaged performance, progress, and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- EL/non-EL or LEP data, including academic achievement, progress, support and accommodation needs, race, ethnicity, gender, etc.
- Career and Technical Education (CTE) data, including coherent sequence coursework aligned with the industry-based certifications, program growth and student achievement by race, ethnicity, gender, etc.
- Section 504 data
- Homeless data
- Gifted and talented data
- Response to Intervention (RtI) student achievement data

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Annual dropout rate data
- Attendance data
- Discipline records
- Class size averages by grade and subject
- · School safety data

Employee Data

- Professional learning communities (PLC) data
- Staff surveys and/or other feedback
- State certified and high quality staff data
- Campus department and/or faculty meeting discussions and data
- TTESS data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Organizational structure data
- Communications data
- Budgets/entitlements and expenditures data

• Study of best practices

Goals

Revised/Approved: September 25, 2018

Goal 1: Provide a Safe and Secure Environment

Performance Objective 1: Canutillo Middle School will provide 4 school-wide programs and/or presentations to promote the development of positive character within a safe and secure environment during the 2018-19 school year.

Evaluation Data Source(s) 1: List of Programs

Summative Evaluation 1: Significant progress made toward meeting Performance Objective

Next Year's Recommendation 1: Continue the implementation of PBIS across campus

| | | | | | Reviews | | | |
|---|----------------|--|--|---------------|---------|-----|---------------|--|
| Strategy Description | ELEMENTS | Monitor | Strategy's Expected Result/Impact | Fori | mative | | Summative | |
| | | | | Nov | Jan | Mar | June | |
| 1) Provide presentations and training to include -No Place for Hate Program -Anti Gang Presentation -Drug & Alcohol Awareness -Character Development Presentation -Local Law Enforcement Agencies Presentation and Cyber Bullying | | Counselors, SRO, PBIS Committee | Reduced amount of Referrals, off campus DAEP placements, Verified incidents of bullying after investigation. | 30% | 30% | 40% | \rightarrow | |
| Critical Success Factors CSF 6 2) Provide a campus wide Positive Behavior Interventions and Supports program to include Universal Expectations and reflections. Core Values: Safety, Respect, Responsibility | | PBIS Committee, Principal, Assistant Principal | Students recognized for positive behavior. Title I Schoolwide Elements

ELEMENT 1. SWP COMPREHENSIVE NEEDS ASSESSMENT (CNA)

1.1: Comprehensive Needs Assessment

School wide comprehensive needs assessment took place at different levels beginning with staff input regarding strengths and needs.

ELEMENT 2. SWP CAMPUS IMPROVEMENT PLAN (CIP)

2.1: Campus Improvement Plan developed with appropriate stakeholders

All faculty members were involved in developing the CIP. Following the feedback from the faculty, CIC and leadership team reviewed the suggested changes and approved the minutes on various occasions to implement the most up to date plan that reflects the current needs of our students.

2.2: Regular monitoring and revision

We monitor and revise during our CIC meetigns every Wednesday of every month.

2.3: Available to parents and community in an understandable format and language

Location of CIP will be found in front office, parent liason's room, school website, instructional coach's room, and all flyers are done in english and spanish. Also, the CIP is available at parents request for parents. Parent liason schedules autmated call outs on a montly basis for any upcoming events in spanish and in english. She also provides information for parents on the school marquee and on a white board visable so when parents are dropping off their students they may view it. The school is also heavy promoting on social media like Facebook, Instagram, Twitter, and the school website. Finally, our

parent liason conducts home visits for parents who are not able to make the meetings when offered.

2.4: Opportunities for all children to meet State standards

We monitor student progress through the use of evaluating student data based on assessments. Students are then placed in corresponding interventions or enrichments during the school day via Mentoring Minds (30 minutes everyday) and all our Math and Reading classes are double blocked.

2.5: Increased learning time and well-rounded education

As a campus, Canutillo Middle School has continued to provide all learners with a rigorous 21st century learning experience by integrating Science, Technology, Engineering, Arts, and Math (STEAM) into a hands-on learning approach. At CMS the faculty and staff are preparing students to be successful in the real world by implementing STEAM initiatives which supports the instructional program where students apply their learning to real-world contexts within the framework of Project/Problem-Based Learning (PBL) experience. Project Based Learning is a common practice across all contents and has proven to have a positive effect on student content knowledge and the development of skills such as collaboration, critical thinking, and problem solving. Writing across ALL contents could be seen on a daily basis at CMS through quick writes, journal writing, note taking, research projects, and real world writing. Finally, in order to reach all our students, the Response to Intervention(RtI) program has seen strong results in tested subjects by having a team of faculty members come together every 9-weeks to review student data and determine best practices to improve student learning. As a result of implementation our SPED and LEP populations have had positive increase in tested subjects. CMS is building momentum in the right direction with many campus initiatives in order to boost student performance. We continue to grow and develop new methods of teaching to reach all our students.

2.6: Address needs of all students, particularly at-risk

For students who have been identified as at-risk CMS is provides a very prescibed intervention instructional support system. Teachers are provided with professional development that adddress the following: Response to Intervention(RtI) program in tested subjects, Project Based Learning across ALL contents, Writing inverventions with the 11-minute essay, Math and ELAR interventions within Mentoring Minds program and Region 19 workshops that address differentation of instruction. All students coded at risk are properly coded and monitored at beginning of each school year. All 13 criteria is evaluated at the beginning of the school year to assure studnets are successfuly identified and serviced. Students are placed accordingly if they qualify in an enrichment or intervention class during the instructional school day.

ELEMENT 3. PARENT AND FAMILY ENGAGEMENT (PFE)

3.1: Develop and distribute Parent and Family Engagement Policy

Students, parents and faculty members have provided feedback to school administration based on a check list provided by the parent and student support department from the district. The parent liason plays a vital role in organizing these events as she promotes the events. Surveys are also conducted at each semester to valuable feedback to provide school officials. We are looking to engage parents in ongoing and meaningful communication about their child's student academic learning and other school activities ensuring that parents and families play an integral role in assisting their child's learning and becoming actively involved in their child's education through the support and partner of our teachers and staff.

3.2: Offer flexible number of parent involvement meetings

Canutillo Middle School offers Coffee with the Principal at 9:00 am and 5:00 pm once a month on a designated date determined a few months in advanced. This event is advertised on social media, website, flyers sent with students, posted on the monthly calendar sent home with students, and via a call out. Each meeting is offered in english and in spanish for any parent present.
