SECTION 2: Voter-Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. Most school districts calculate a constant of the rate of the rvoter-approval tax rate that is split into three separate rates. 18

- Maximum Compressed Tax Rate (MCR): A district's maximum compressed tax rate is defined as the tax rate for the current tax year per \$100 of valuation of taxable property at which the district must levy a maintenance and operations tax to receive the full amount of the tier one allot ment. 15
- 2. Enrichment Tax Rate (DTR): 20 A district's enrichment tax rate is defined as any tax effort in excess of the district's MCR and less than \$0.17. The enrichment tax rate is divided into golden pennies and copper pennies. School districts can claim up to 8 golden pennies, not subject to compression, and 9 copper pennies which are subject to a claim up to 8 golden pennies and copper pennies.compression with any increases in the guaranteed yield. 21

The MCR and DTR added together make up the school district's maintenance and operations (M&O) tax rate. Districts cannot increase the district's M&O tax rate to create a surplus in M&O tax revenue for the purpose of paying the district's debts ervice. 22

As chool district may adopt a M&O tax rate that exceeds the MCR in order to maintain the 2021-2021 school year basic all otment if it meets certain requirements and receivesapproval from TEA. Refer to Education Code, Section 48.2553 for more information.
