Letter of Transmittal

To the Board of Trustees and Taxpayers of the Canutillo Independent School District:

The Texas Education Code requires all school districts to file a set of financial statements with the Texas Education Agency (TEA) within 150 days of the close of each fiscal year. The financial statements must be presented in conformity with generally accepted accounting principles (GAAP) and audited by a firm of licensed certified public accountants in accordance with generally accepted auditing standards. Pursuant to this requirement, we hereby issue the Annual Comprehensive Financial Report of the Canutillo Independent School District (the District) for the fiscal year ended June 30, 2021.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. In order to provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed to protect the District's assets from loss, theft or misuse. Additionally, the internal control framework is designed to compile sufficient reliable information for the preparation of the District's financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Because the costs of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable assurance rather than absolute assurance that the financial statements will be free from material misstatement. To the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The financial statements of the District have been audited by Gibson Ruddock Patterson LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2021, are free of material misstatement. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. Based upon the audit, the independent auditors concluded that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the year ended June 30, 2021, are presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The District includes all funds of its governmental operations that are controlled by or dependent upon the District as determined on a basis of financial accountability. Financial accountability includes appointment of the organization's governing body, imposition of will, and fiscal dependency. The District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity". The accompanying financial statements include only those funds of the District, as there are no other organizations for which it has financial accountability.

The District is also required to undergo an annual "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements for the administration of federal awards. The results of the District's single audit for the fiscal year ended June 30, 2021,

BUSINESS SERVICES DIVISION

provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

These reports are available in the Federal Awards Section of this report.

Generally accepted accounting principles require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

CISD management is directly responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of "reasonable assurance" recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefit requires estimates and judgments by management. CISD management believes that the internal controls adequately meet these objectives.

The objective of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Trustees. Every school district in Texas is required by law to prepare and file a budget with the Texas Education Agency. Activities of the General, Child Nutrition and Debt Service funds are included in the District's budget. Budgets for Special Revenue funds and Capital Projects Fund are prepared on a project basis, based on grant regulations or applicable bond ordinances. Budgetary control (the level at which expenditures cannot legally exceed appropriations) is maintained at the functional category level within each fund. These functional categories are defined by the Texas Education Agency and identify the purpose of transactions. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts lapse at year end. However, encumbrances outstanding at year-end generally roll over to and are absorbed by the following year's budget.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

[Canutillo ISD Profile](#)

The Canutillo Independent District sits on a 67 square mile area on the far west section of El Paso County, within a diverse area that includes the city of El Paso, the Village of Vinton, and census-designated places such as Canutillo and West-way. The Board of Trustees consists of seven uncompensated members, who serve on a four-year term. Candidates must be qualified voters of the District, and on a rotating basis, three or four places are filled during annual elections, held the second Saturday of November. Vacancies may be filled by appointment until the next election.

Regular meetings are usually scheduled on the fourth Tuesday of each month, held at the Districts' Central Office Board Room. Special meetings and work sessions are scheduled as needed and announced in compliance with public notice requirements. Some meetings have been held online due to the Covid-19 situation. The Board has final control over local school matters limited only by the state legislature, the courts, and by the will of the people as expressed in school Board elections. Board decisions are based on a majority vote of those present.

BUSINESS SERVICES DIVISION CANUTILLO A Premier District

In general, the Board adopts policies, sets direction for curriculum, employs the Superintendent, and oversees the operations of the District and its schools. Besides general Board business, Trustees are charged with numerous statutory regulations including calling trustee and other school elections and canvassing the results, organizing the Board and electing its officers. The Board is also responsible for setting the tax rate, setting salary schedules, and acting as a board of appeals in personnel and student matters, confirming recommendations for textbook adoptions and adopting and amending the annual budget. The Board solicits and evaluates community input and support concerning actual policies. The Texas Education Agency and Southern Association of Colleges and Schools provide the District's K-12 education accreditation.

Budget

- Total Budget (all funds): \$77 million
- Tax Rate \$1.39 = M&O \$1.03 + I&S \$0.36

FOCUS & DIRECTION

Superintendent's Letter – 5 Year Strategic Plan

The Canutillo Independent School District stands as one of the most recognized and fastest-growing school districts in the El Paso community. With a rich history, strong character, and a wealth of people willing to devote their energy and spirit to our children's education, we are poised to reach our goal of becoming one of the premier school districts in the region, the state, and the nation.

To ensure that we achieve our goal, we have developed a strategic plan to guide our leadership, administrators, and staff as we work tirelessly to provide an innovative, high-quality education for the children of the Canutillo community.

The CISD stands to experience rapid growth in housing, retail, commercial, and industrial developments in the coming years. Already, we can see the formation of new housing subdivisions in ever-expanding neighborhoods. We can see the construction of large-scale endeavors such as a new teaching hospital and business expansions in Northwest El Paso, endeavors that will enhance our District with new job opportunities and increased economic development.

To best accommodate this increase in residential and business populations on the horizon, we have to plan today. We must understand that growth is inevitable, and that it can be an invaluable opportunity for a school district prepared to seize it.

The long-term vision of the strategic plan will ensure that we are devoting all our District's time and resources toward achieving our yearly goals. This will serve as the foundation for our District's growth over the next half-decade and beyond. The CISD has made great strides in establishing itself as a school district of exceptional academic achievements, athletic prowess, and artistic talents. With this strategic plan, our District can continue to move forward with the confidence that our efforts are bringing us closer each and every day to our goal of being the premier school district.

Sincerely,

Dr. Pedro Galaviz

Superintendent of Schools

BUSINESS SERVICES DIVISION CANUTILLO A Premier District

CISD School Year in Review

The 2020-2021 school year, much like the previous year, could be considered one of the most challenged and accomplished periods Canutillo ISD has encountered. And, as our District celebrates 62 years of innovation and progress since its establishment in 1959, we reminisce on our achievements while envisioning our future.

Once again, the District has pledged its commitment to our students by maintaining a wide range of academics where students have choices in elementary, middle, high school and early college. The District was off to a good start in collaboration with the District-wide Connectivity project and the Apple One-to-One initiative. The Finance Department once again received recognition from both ASBO and the GFOA. In addition, we received Transparency Stars from the Comptroller's Office and a Superior rating on the FIRST.

We saw further accomplishments with our student receiving a national merit award, Purchasing award of merit, Outstanding women in computer science, Innovation in College Readiness through Mathematics, and Award-winning public relations. As well as another year of excellence in financial reporting that put the District at five consecutive years in receiving these awards.

No report would be complete without mention of the Covid-19 pandemic. In January 2020, the President of the United States declared a public health emergency. Subsequently, on March 13, the districts across the State of Texas, were ordered to shut down and initiate distance learning through the remainder of the 2019-2020 school year. The 2021 SY was filled with uncertainty and controversy as the Nation, State, Districts, parents, students and staff struggled to regain a sense of normalcy. The Texas Education Agency awarded federal funds to the districts under ESSER to help fund the additional costs incurred to provide distance learning, to prevent, prepare for, and respond to the pandemic and address the learning loss also known as the Covid Slide. For Canutillo ISD, receipt of these federal funds reduced state allotments for fiscal year 2021 by a small amount. The District continues to closely monitor its budget and cash flows to address the needs of its students and personnel. Canutillo ISD is committed to fulfilling its mission to create rigorous, student-centered classrooms which develop future-ready students to compete in a global economy and thrive in a multi-cultural world.

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire CISD and audit staff which assisted and contributed to the preparation of this report.

We would also like to express appreciation to the Board of Trustees and the Superintendent for their interest and support in the academic and financial operations of the District, especially during these challenging times.

Finally, we would like to thank the community members of the District for their support of our public schools, and the teachers and principals who provide the excellent standard of educational services for which the District has become known. Go Eagles!

Respectfully submitted,

Independent Auditor's Report

To the Board of Trustees
Canutillo Independent School District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Canutillo Independent School District (District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence, about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Canutillo Independent School District, as of June 30, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note I.F. to the financial statements, Canutillo Independent School District adopted new accounting guidance, GASB Statement No. 84, *Fiduciary Activities*. Refer to Note IV.AD for the discussion of the impact on the fund categories and net position related to the adoption of this statement. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information, the pension and other post employment benefits information on pages 29 through 41 and 105 through 115 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, required TEA schedules, and the statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section, required TEA schedules, and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 12, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the Canutillo Independent School District (District), we offer readers of the Canutillo Independent School District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2021.

Financial Highlights

- The assets plus deferred outflows of resources of the Canutillo Independent School District exceeded its liabilities plus deferred inflows of resources for fiscal year 2021 by \$7,355,176 (net position).
- The District's unrestricted net position reflects a deficit of \$23,281,814 resulting from the implementation of GASB 75 in the 2017-2018 fiscal year. The District's total net position decreased by \$4,855,398 for fiscal year 2021.
- The Canutillo Independent School District's total liabilities and deferred inflows increased by 7,270,851.
- At the end of the fiscal year, the Canutillo Independent School District's governmental funds reported combined ending fund balances of \$37,368,884, an increase of \$6,380,269 from the prior fiscal year. This is a result of the following: an increase of \$3,522,496 in the general fund, an increase of \$3,179,671 in the debt service fund, a decrease of \$321,898 in the other funds.
- At the end of the fiscal year, the unassigned fund balance for the general fund was \$15,925,829, a decrease of \$1,515,600 from prior fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Canutillo Independent School District's basic financial statements. The Canutillo Independent School District's basic financial statements are comprised of three components: 1) governmental-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the Canutillo Independent School District's finances, in a manner similar to that of a private sector business.

The *statement of net position* presents information on all the Canutillo Independent School District's assets plus deferred outflows of resources and liabilities plus deferred inflows of resources, with the difference between these reported as *net position*. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows only in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both the *statement of net position* and the *statement of activities* distinguish functions of the Canutillo Independent School District that are primarily supported by property taxes and federal and state revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through fees and charges. The governmental activities of the Canutillo Independent School District included instruction, student transportation, food service, and community service. The District does not have any business-type activities.

The government-wide financial statements can be found on pages 44-45 of this report.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Canutillo Independent School District, like other school districts, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the Canutillo Independent School District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Government Funds

Government funds are used to account for essentially the same functions reported as *government activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in the fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The governmental fund financial statements can be found on pages 47-51 of this report. Information is presented separately in the governmental fund balance sheet and in the governmental fund statements of revenues, expenditures, and changes in fund balance for the general fund and debt service fund. These two funds are considered major funds. The other funds column presented in the governmental fund financial statement is composed of the non-major special revenue funds and non-major capital projects funds. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* and can be found on page 124-134 in this report.

The Canutillo Independent School District adopts an annual appropriated budget for its General Fund, Child Nutrition Program and Debt Service Fund. A budgetary comparison schedule has been provided for all three funds to demonstrate compliance with this budget.

Proprietary Funds

The Canutillo Independent School District maintains a proprietary fund type which is made up of one internal service fund. The internal service fund is an accounting device used to accumulate and allocate costs internally among the District's partially self-funded health care fund. Because this service predominantly benefits governmental rather than business-type functions, it has been included within *governmental activities* in the government-wide financial statements. The proprietary fund financial statements can be found on pages 54-56 of this report.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the District's health care fund.

Fiduciary Funds

Fiduciary funds are used to account for resources held in trust for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Canutillo Independent School District's own programs. The fiduciary fund financial statements can be found on page 58-59 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 60-104 of this report.

Government-wide Financial Analysis

Statement of Net Position

As noted before, net position may serve over time as a useful indicator of a district's financial position. In the case of the Canutillo Independent School District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$7,355,176 at the end of the fiscal year.

A review of Canutillo Independent School District's Statement of Net Position shows that the largest portion of assets 68.2% is its investment and pending investment (restriction for capital projects) of capital assets (e.g., land, buildings, machinery, and equipment). The Canutillo Independent School District uses these capital assets to educate the children of Canutillo, Texas; therefore, these assets are not available for future spending. Although the Canutillo Independent School District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Among the District's assets, cash and cash equivalents represent 22% of total assets. The Canutillo Independent School District's net position is listed below:

Canutillo Independent School District's Net Position

Total Net Position	\$ 7,355,176	\$ 12,210,574	\$ (4,855,398)

A portion of the Canutillo Independent School District's net position is subject to external restrictions regarding how it may be used. These restrictions pertain to federal and state programs, \$3,338,234, debt service, \$7,243,081 and campus activities, \$385,800. Unrestricted net position reflects a deficit of \$23,281,814 resulting from the implementation of GASB 75 in the 2017-2018 fiscal year for OPEB. Although the District reports a deficit, the deficit is primarily due to reporting the District's proportionate share of the net OPEB liability. The total district liability is reported in the governmental activities; however, the actual liability does not require the use of current resources at the fund level, which results in a timing difference since the TRS-Care plan is funded on a pay-as-you-go basis. The District has made all

contractually required contributions as noted in the required supplementary information and has sufficient fund balance to meet the District's ongoing obligations to students and creditors.

Another important consideration is the District's liquidity, that is, its ability to convert assets into cash to pay for obligations and commitments. With current assets representing 31.8% of total assets, the District's current ratio is 4.2, indicating a liquid position.

Statement of Activities

Governmental activities decreased the Canutillo Independent School District's net position by \$4,855,398.

Below is a chart illustrating the revenue sources by category for governmental activities. Following the chart is a schedule reflecting the major elements of the District's governmental activities that contributed to the increase in the change in net position.

General Fund Budgetary Highlights

The Board of the Canutillo Independent School District originally adopted a surplus budget in the general fund of \$67,954,270 on June 23, 2020 for the fiscal year. The final amended budget resulted in an increase to \$82,291,126, a variance of \$14,336,856, which was attributed primarily to an increase of \$380,700 in projected state funding, \$1.2 million in proceeds from a land sale, \$10 million from the issuance of Maintenance Tax Notes as well as an allocation of \$2.161 million of fund balance for capital projects, the purchase of one school bus and an increase in commercial insurance. The budget to actual results in general fund included a positive variance in revenues of \$164,59, primarily due to increased property tax collections, a decrease in state funding and an increase in revenues from SHARS, Indirect Costs from Federal Grants and the Child Nutrition Program. General Fund expenditure budget to actual results also included a positive variance of \$5.762 million, primarily due to salary savings, the reclassification of instructional leadership salaries to a federal grant and delays in the completion of projects due to COVID-19 related issues.

Capital Asset and Debt Administration

Capital Assets

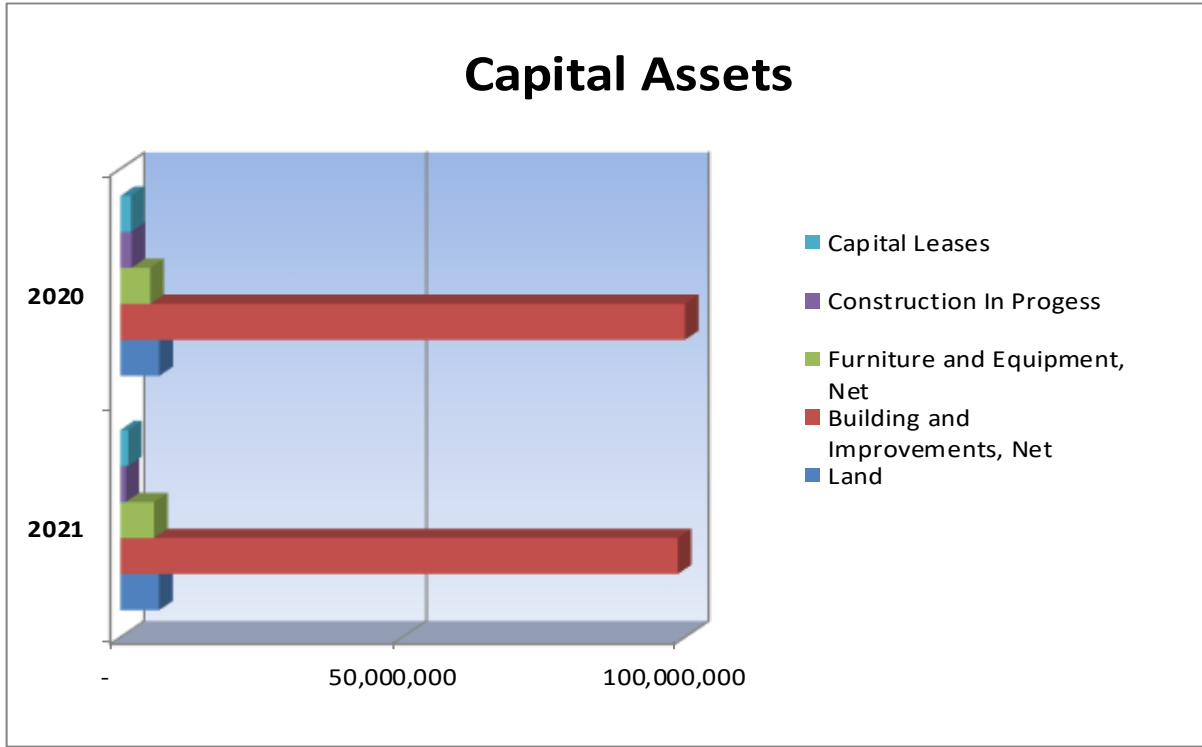

The Canutillo Independent School District's investment in capital assets as of June 30, 2021, was \$113,760,165 net of accumulated depreciation, a decrease of \$3,232,863 in capital assets. These assets include land, buildings, furniture and equipment, vehicles, and construction in progress. The District had capital asset additions in the amount of \$2,706,695, capital asset retirements and reclassifications of \$107,199; the depreciation expense for all assets was \$5,882,812. The additions to the District's capital asset inventory consisted mainly of construction work in progress, furniture and equipment, and vehicles. The capital asset retirements due mainly to the sale of a land parcel and the decommissioning of buses. The total decrease in the District's capital assets for the year was 3% (net of accumulated depreciation).

Additional detailed information about the District’s capital assets activity is presented in Note IV.C of the Notes to the Financial Statements.

Long-Term Debt

At fiscal year ending June 30, 2021, the District’s future bond debt payments are \$108,333,741 of which \$82,387,627 attributable to principal and \$25,944,114 to interest. A comparison of the changes in bonded debt (principal only) is listed below.

	Governmental Activities				
	Beginning Balance 07-01-20	Additions	Reductions	Ending Balance 06-30-21	Due Within One Year
<u>Bonds Payable:</u>					
Building and Refunding	85,875,000	20,454,627	23,940,000	82,389,627	5,995,000
Total Bonds Payable	85,875,000	20,454,627	23,940,000	82,389,627	5,995,000

Debt service requirements are normally due in February (Interest) and August (Principal) of every year. For the period ending June 30, 2021, the bond debt payments made was in the amount of \$5,974,146. The principal portion paid for year was \$3,445,000 and interest paid was \$2,529,146.

In July 2020, the District issued Unlimited Tax Refunding Bonds, Taxable Series 2020 in the amount of \$20,454,627, which was used to refund portions of the Unlimited Tax Refunding Bonds Series 2013 and to

pay the costs associated with the issuance sale of the bonds. The refundings resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$1,503,054. In addition, the refunding resulted in an economic savings of \$2,977,935 (difference between the present values of the old and new debt service payments).

On July 15, 2020, the District issued Maintenance Tax Notes, Series 2020 in the amount of \$9,775,000. The notes were issued at a premium, and the net proceeds from the issuance was \$10,203,124. The tax notes are payable on February 15 and August 15 of each year, commencing on August 15, 2021. The final principal payment on the notes is on August 15, 2030. The District did not pay principal or interest on this note during the fiscal year ending June 30, 2021.

Additional information on the Canutillo Independent School District's long-term debt can be found in note IV, items E through H on pages 79 and 82 of this report.

Financial Analysis of the Government's Funds

The focus of the Canutillo Independent School District's governmental funds is to provide information on near-terms, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. At the end of the fiscal year, the combined ending fund balances for governmental funds for the Canutillo Independent School District was \$37,368,884. This is an increase of \$6,380,269 from the prior year. The increase can be attributed to the following: an increase of \$3,522,496 in the general fund, an increase of \$3,179,671 in the debt service fund, a decrease of \$321,898 in the non-major capital projects funds and special revenue funds.

The change in the general fund (excluding child nutrition program) is due primarily to an increase in property tax collections of \$877,458 attributed to increased property tax values, decrease in state funding of \$947,338, due to TEA's ADA hold harmless state funding adjustment and the issuance of Maintenance Tax Notes in the amount of \$10 million. In addition, the general fund (excluding child nutrition program) had expenditure increases in payroll of \$2.283 million, due to a 2% raise and the payment of a retention stipends to qualified employees. An increase of \$1.126 million in capital expenditures due to the completion of a district-wide LED lighting project and an increase of \$4.854 million for the completion of the one-to-one student device deployment and Canutillo Connect Wi-Fi project. The child nutrition program operated under distribution waivers issued by USDA that allowed for various methods of meal delivery as well as an increased reimbursement rate that resulted an increase in revenues of \$448,287 and an increase in expenditures of \$781,695 due primarily to the on-going districtwide cafeteria remodeling and improvement projects, in comparison with the prior fiscal year.

The change in the debt service fund is due primarily to an increase in property tax revenues of \$629,022 a decrease in interest earned on investments of \$60,180 and a decrease in bond refunding proceeds of \$581,444 as well as a decrease in debt service payments of \$1,958,556.

The change in the non-major capital projects funds and special revenue funds is due primarily to a decrease of \$358,992 in the campus activity revenue, because of a moratorium placed on fundraising activities due to COVID-19 related restrictions. There was a decrease in expenditures of \$845,281. This is mostly attributed to reduced expenditures in capital projects of \$680,813, and a decrease in grant expenditures of \$102,233 and a decrease in campus activities of \$266,701.

The unassigned fund balance for the governmental funds has decreased to \$15,925,829 from \$17,441,429. The remaining amounts have been classified for the following purposes:

nonspendable fund balance

- invested in inventory - \$340,951
- prepaid items - \$152,678

restricted fund balance

- for capital acquisition and contractual obligations - \$3,474,426
- for Food Service/Federal or State Funds Restrictions - \$3,314,380
- to retire long-term debt - \$11,172,597
- other restricted fund balance - \$385,800

committed fund balance

- for other committed fund balance - \$0

assigned fund balance

- construction - \$883,850
- capital expenditures and equipment - \$1,669,533
- other assigned - \$48,840

The general fund is the chief operating fund of the District. At the end of the fiscal year, the total fund balance in the general fund was \$25,620,160.

To maintain the District in a strong financial position, the goal of the Board shall be to maintain the fund balances of the general and debt service funds at an adequate level. Per Board Policy CE (Local), the level of fund balance shall protect the District against potential revenue shortfalls and shall provide operating funds until tax revenues are received. The level of adequacy in the general fund shall not be less than two months of operating expenditures per Board Policy CE (Local). This is included in unassigned fund balance as no specific purpose has been associated with this reserve. With respect to debt service, the minimum threshold is 15% of the current year debt service requirements. The District was in compliance with these requirements in fiscal year 2021.

Financial Analysis of the Proprietary Funds

As of June 30, 2021, the District’s health care fund had a net position of \$2,260,003, a decrease of \$1,639,725 from the prior year. This decrease was the result of a strategic plan to reduce the net position for the healthcare fund to recommend levels, by implementing a “Healthcare Holiday” in which the District’s annual contribution was reduced by two months. Revenues decreased by \$1,147,271 while claims and fees increased by \$1,289,685.

Economic Factors and Next Year’s Budgets and Rates

Fiscal Year 2021-2022 began with campuses re-opening to 100% in-person instruction; however, safety protocols were implemented to help mitigate the effects of Covid-19. The safety of our students, staff and community remains the District’s priority. To help in providing a high-quality education, the District has received federal funding and has implemented a plan to help address the learning loss many students experienced during the pandemic. The pandemic has created many challenges; however, the financial condition of the District continues to be strong, and administration is confident in the resilience of its students and employees to provide a successful school year.

Assessed taxable property values and average daily attendance are the two driving forces that generate revenues for school districts. The 2021-2022 budget was adopted with a Maintenance & Operations (M&O) tax rate of \$0.9824, a reduced tax rate as required by House Bill 3 tax compression requirement and no change in the Interest & Sinking (I&S) tax rate of \$0.3600. The District’s certified assessed net taxable property value was \$2,843,105,730, an increase of \$226,937,273 over the previous year’s certified values.

Revenue was estimated using 95% student average daily attendance and an estimated 4.33% decrease from preliminary tax levy value. Salary increases were provided at 2% for all employees.

On a separate note, the State of Texas has incorporated a financial accountability rating system for school districts titled the Financial Integrity Rating System of Texas (FIRST). The purpose of the rating system is to achieve quality performance in the financial management of school districts. The ratings issued as of the date of this report are based on data from fiscal and school year 2019-2020 and include twenty indicators.

This is a goal made more significant due to the complexity of the accounting associated with the Texas' school finance system. The rating system was developed by TEA as a response to Senate Bill 875 of the 76th Texas Legislature in 1999. The scores are based on analysis of staff and student data, as well as budgetary and actual financial data.

Due to time lags in receiving and analyzing the required data, the FIRST rating is always a year behind. The data received and presented in the fall of 2021 covers the 2020 fiscal year. The Canutillo Independent School District received a perfect score of 100 points for a "Superior Achievement" rating.

Additional information is available on Texas Education Agency's website.

 RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
 FOR THE YEAR ENDED JUNE 30, 2021

EXHIBIT C-4

Total Net Change in Fund Balances - Governmental Funds	\$	6,380,269
Amounts reported for governmental activities in the statement of activities are different due to the following:		-
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets, is allocated over their estimated useful lives as depreciation expense. Thus the cost of current year outlays is removed from expense and depreciation is added to expense, except for land which is not depreciated over the estimated useful lives.		(3,232,863)
- Additions to furniture and equipment \$555,890		
- Additions to vehicles \$563,867		
- Additions to construction in progress \$1,586,938		
- Disposal of assets and reclassification (\$107,199)		
- Depreciation expense (\$5,882,812)		
- Remove accumulated depreciation for assets disposals \$50,453		
Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Proceeds from the sale of bonds is a source of financing in the governmental funds, but the statement of net position recognizes it as an increase in the long term liabilities. The changes in long term liabilities at year end consist of the following:		(7,438,044)
- Net change in bonds payable \$3,485,373		
- Net change in accretion payable (\$3,087,280)		
- Net change in premium on bonds payable \$1,783,269		
- Net change in capital lease payable \$328,478		
- Net change in maintenance tax notes (\$9,775,000)		
- Net change in premium on maintenance tax notes (\$387,439)		
- Net change in accumulated leave benefits \$214,555		
Deferred inflows and outflows of gains and losses on debt refundings are amortized over the term of the bonds in the statements but are expensed in the year incurred in governmental funds.		1,388,288
- Net deferred charge for refunding \$1,219,656		
- Net deferred inflow gain on refunding \$168,632		
Property taxes that will not be collected until after the District's fiscal year end are not considered "available" revenues and are deferred in the governmental funds. The change in deferred tax revenues, net of allowance for bad debt, are recognized in the statement of activities.		371,442
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus, requires the use of current financial resources. In the statement of activities, however interest expense is recognized as the interest accrues, regardless of when it is due.		(47,998)
Prepaid insurance amortization is not reported in the fund financial statements. The net change in prepaid insurance is reported in the statement of activities.		69,633
Internal service funds are used by management to charge the costs of health insurance to individual funds. The net revenue (expense) of the internal service funds is reported with governmental activities.		(1,639,725)

CANUTILLO INDEPENDENT SCHOOL DISTRICT

NOTES TO BASIC THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Canutillo Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board, and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

A. Reporting Entity

The Board of Trustees (the "Board") is elected by the public and has the authority to make decisions, appoint administrators and managers, and significantly influence operations. The Board also has primary accountability for fiscal matters; therefore, the District is not included in any other governmental "reporting entity" as defined by the Governmental Accounting Standards Board ("GASB").

In accordance with Governmental Accounting Standard Board, a financial reporting entity consists of the primary government and its component units. Component units are legally separate organizations for which the elected officials of the District are financially accountable, or for which the relationship to the District is such that exclusion would cause the District's financial statements to be misleading or incomplete. Discretely presented component units are reported in a separate column in the basic financial statements to emphasize they are legally separate from the school district. The District's blended component unit, although a legally separate entity, is in substance a part of the District's operations, and so data from this entity is combined with data of the primary government.

The criteria used to determine whether an organization is a component unit of the District includes: financial accountability of the District for the component unit, whether the District appoints a voting majority of the entity's board, the ability to impose the District's will on the component unit, fiscal dependency criterion, if it is a financial benefit or burden to the District, and whether services are provided entirely or almost entirely to the District.

For financial reporting purposes, the Canutillo Independent School District Public Facilities Corporation (PFC) is included as a blended component unit in the operations and activities of the District. The criteria used to include the PFC as a blended component unit of the District include: the District appoints a voting majority of the PFC's governing body, the District is able to impose its will on the PFC, and the PFC serves the District exclusively as a financing vehicle for capital projects.

FOR THE YEAR ENDED JUNE 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Canutillo Independent School District Public Facilities Corporation (PFC)

In 1999, the Board of Trustees adopted a resolution approving the creation of the Canutillo Independent School District Public Facilities Corporation, a nonprofit public corporation, for the purpose of constructing school facilities and leasing those facilities to the District.

As of and for the year ended June 30, 2021, the PFC was inactive. As such, there is no activity to include in these financial statements.

Canutillo Independent School District Agronomics Center

During the year ended August 31, 2005, the Board of Trustees approved the creation of the Canutillo Independent School District Agronomics Center, a Texas Nonprofit Corporation, for the purpose of developing an Agricultural Science and Research Center. The Agronomics Center was granted tax exempt status from the IRS.

The Agronomics Center is managed by a board of seven directors who are appointed by the Board of Trustees. The Board of Trustees has ultimate control over the Agronomics Center, and may alter the structure, organization, or activities of the corporation at any time. Upon dissolution of the Agronomics Center all remaining assets shall be transferred to the District.

As of and for the year ended June 30, 2021, the Agronomics Center was inactive. As such, there is no activity to include in these financial statements.

B. Government-Wide and Fund Financial Statements

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the District's nonfiduciary activities with most of the interfund activities removed. Governmental activities include programs supported primarily by taxes, charges to school districts for services, state funds, grants and other intergovernmental revenues.

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement category represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time. For pensions and OPEB, these outflows result from pension plan and OPEB contributions made after the measurement date of the net pension and OPEB liabilities and the net differences between projected and actual earnings on pension and OPEB plan investments; results of differences in actuarial assumptions; differences between expected and actual economic experiences; and changes in the District's proportional share of net pension and OPEB liabilities. The deferred outflow of resources related to pensions and OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension and OPEB liabilities in the next fiscal year. The other pension and OPEB related deferred outflows will be amortized over a systematic and rational method over a closed period.

CANUTILLO INDEPENDENT SCHOOL DISTRICT

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement category represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. For pensions and OPEB, these inflows result from pension and OPEB changes in actuarial assumptions; differences between expected and actual economic experiences; and changes in the District's proportional share of net pension and OPEB liabilities. These inflows will be amortized over a systematic and rational method over a closed period.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflow of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. The Plan's fiduciary net position has been determined on the same basis as that used by the Plan. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Every Student Succeeds Act. If a revenue is not a program revenue, it is a general revenue used to support all of the District's functions. Taxes are always general revenues.

Interfund activities between governmental funds and between governmental and proprietary funds appear as due to or due from on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Position and other resources and other uses on the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses and Changes in Fund Net Position. All interfund transactions between governmental funds and between governmental and internal service funds are eliminated on the government-wide statements. The District has no interfund services provided and used between functions that would be program revenue which would not be eliminated in the process of consolidation.

CANUTILLO INDEPENDENT SCHOOL DISTRICT

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The fund financial statements report on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental funds major and reports their financial condition and results of operations in a separate column.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues and expenses are nonoperating.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property Taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, current assets, deferred outflow or resources, current liabilities, deferred inflow of resources, and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues, other than property tax revenues, available if they are collectible within one year after year end. School Health and Related Services (SHARS) revenue is recognized as revenue when it is earned and when the annual Cost Report is acknowledged by the Texas Health and Human Service Commission.

Revenues from local sources consist primarily of property taxes, services provided to districts and teachers, and investment income. Revenues received from the State are recognized under the susceptible-to-accrual concept, that is, when they are both measurable and available. The District considers property tax revenue available if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

CANUTILLO INDEPENDENT SCHOOL DISTRICT

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Unavailable revenue from property taxes arise only under modified accrual basis of accounting. The governmental funds report this unavailable revenue as deferred inflow of resources, which is recognized revenue in the period that the amounts become available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly when such funds are received, they are recorded as unearned revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors may require the District to refund all or part of the unused amount.

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. With this measurement focus, assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into investment in capital assets, restricted, and unrestricted.

D. Fund Accounting

The District reports the following major governmental funds:

1. General Fund - The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
2. Debt Service Fund - The District accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds in a debt service fund.

Additionally, the District reports the following fund types:

Governmental Funds:

1. Special Revenue Funds - The District accounts for resources restricted for specific purposes by a grantor in a special revenue fund. Most Federal and State financial assistance is accounted for in a Special Revenue Fund and sometimes unused balances must be returned to the grantor at the close of specified project periods.
2. Capital Project Funds - The proceeds from long-term debt financing will be used to construct, renovate, acquire and equip school buildings in the District and pay any associated costs.
3. Permanent Funds - The District has no Permanent Funds.

I. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Proprietary Funds:

4. Enterprise Funds - The District has no Enterprise Funds.
5. Internal Service Funds - These funds are used to account for financing of goods or services provided by one department to other department of the District on a cost-reimbursement basis. The District's Internal Service Fund is the self-insurance fund for Health Care.

Fiduciary Funds:

6. Private Purpose Trust Funds - The District has no Private Purpose Trust Funds.
7. Pension (and Other Employee Benefit) Trust Funds - The District has no Pension Trust Funds.
8. Investment Trust Fund - The District has no Investment Trust Funds.
9. Custodial Funds - The District accounts for resources held for others in a custodial capacity in custodial funds. The District's Custodial fund is used to account for activities of student groups.

E. Other Accounting Policies

1. For purposes of the statement of cash flows for proprietary funds and similar fund types, the District considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.
2. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
3. Investments with an original maturity greater than one year from date of purchase are stated at fair value based on quoted market prices as of year end, except for nonparticipating interest-earning investment contracts which are reported at cost. Investments with an original maturity of less than one year are reported at amortized cost.
4. The funds of the District must be deposited and invested under the terms of a contract, contents of which are set out in the **Depository Contract Law**. The depository bank places approved pledged securities for safekeeping and trust with the District's agent bank in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. Management asserts that the District is in substantial compliance with the requirements of the Act and with local policies.
6. Additional policies and contractual provisions governing deposits and investments for the District are specified below:

Credit Risk:

Deposits - The District is not exposed to credit risk.

Temporary Investments - To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations the District limits investments in public funds investment pools to those that have received top ratings issued by nationally recognized statistical rating organizations (NRSROs). As of June 30, 2021, the District's investments in TexPool, TexStar, Logic, and Texas Class investment pools were rated AAAM by Standard & Poor's. The Lone Star investment pools was rated AAAf by Standard & Poor's.

Custodial Credit Risk:

Deposits - State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a value equaling or exceeding the amount on deposit at the end of each business day. Since the District complies with this law, it has minimal custodial credit risk for deposits.

Temporary Investments - To limit the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in possession of an outside party, the District requires counterparties to register the securities in the name of the District and hand them over to the District or its designated agent. This includes securities in securities lending transactions. Investment pools are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book-entry form.

(Continued)

CANUTILLO INDEPENDENT SCHOOL DISTRICT

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Concentration of Credit Risk:

Deposits - The District is not exposed to concentration of credit risk.

Temporary Investments - To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer, the District's policy states that the portfolio must be diversified. Concentration of Credit Risk is not applicable to investment pools since the purpose of these pools is to diversify the District's investment portfolio.

Interest Rate Risk:

Deposits - The District is not exposed to interest rate risk.

Temporary Investments - To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District requires its investment portfolio to have maturities of less than one year on a weighted average maturity (WAM) basis.

Foreign Currency Risk:

Deposits - The District attempts to limit the risk that changes in exchange rates will adversely affect a deposit by avoiding deposits denominated in a foreign currency.

Temporary Investments - The District attempts to limit the risk that changes in exchange rates will adversely affect the fair value of an investment by avoiding investment pools or securities which are denominated in a foreign currency.

7. The District reports inventories of supplies at weighted average cost including consumable maintenance, instructional, office, athletic, and transportation items. Supplies are recorded as expenditures when they are consumed. Inventories of food commodities which are received at no cost are recorded as revenue and expenditures at market values supplied by the Texas Department of Agriculture when received. At year end, the commodities inventory is recorded to inventory and unearned revenue.

Prepaid items on the balance sheet are accounted for using the consumption method and are recognized as expenditures over the periods in which the service is provided.

8. In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type Statement of Net Position. When applicable, premiums and discounts are presented as a component of liabilities while deferred losses on refundings are presented as deferred outflows of resources. Both items are deferred and amortized over the life of the related debt using the straight line method. Long-term debt is reported net of the applicable premium or discount.

(Continued)

CANUTILLO INDEPENDENT SCHOOL DISTRICT

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the fund financial statements, governmental fund types recognized bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9. It is the District's policy to permit some employees to accumulate earned but unused vacation and sick pay benefits. The District currently does not have a policy to pay any amounts related to unpaid accumulated sick leave when employees separate from service with the District. However, prior to August 31, 1996, the District did allow up to 80 days of sick leave to be accumulated and paid upon separation from service and the liability recorded relates to those employees that were eligible. All vacation pay is accrued when incurred in the government-wide financial statements.
10. Capital assets, which include land, buildings, furniture and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at the acquisition value at the date of the receipt.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Significant gains and losses on the disposal of assets are considered infrequent in occurrence and are reported in the governmental activities column of the government-wide financial statements as a Special Item. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the District are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and Improvements	3 - 60
Portable buildings	20
Vehicles	20
Other Equipment	10
Computer Equipment	10

11. Net Position on the Statement of Net Position include the following:
 - **Net Investment in Capital Assets** - This component of net position consists of capital assets, net accumulated depreciation, reduced by the outstanding balances of bonds, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt will be included in this component of net position.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- **Restricted for Federal and State Programs** - This component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets, which are restricted by federal and state granting agency(s).
 - **Restricted for Debt Service** - This component of net position consists of restricted assets reduced by liabilities and deferred inflow of resources related to those assets. The assets arise from bond issuance which have constraints placed on them by the bond covenant(s) for the purpose of future debt service payments.
 - **Restricted for Campus Activities** - This component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets, which are restricted transactions related to a principal's activity fund.
 - **Unrestricted Net Position** - This component of net position is the net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position.
12. The District reports the following fund balance categories which describe the nature and relative strength of the spending constraints:
- **Nonspendable Fund Balance** - Represents amounts that are not in a spendable form or are legally or contractually required to be maintained intact, such as inventories.
 - **Restricted Fund Balance** - Represents amounts that are restricted to specific purposes, with constraints placed on the use of resources by (a) external creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or (c) enabling legislation.
 - **Committed Fund Balance** - Represents amounts that are restricted for purposes which the Board of Trustees, the District's highest level of decision-making authority, has designated their use. These amounts are committed through a formal resolution, requiring funds to be used only for specific purposes. These amounts can only be re-allocated by the same formal action that was taken to originally commit those amounts. The Board of Trustees shall take action to commit funds for a specific purpose prior to the end of the fiscal year.
 - **Assigned fund balance** - Represents amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted or committed. The governing body has delegated authority to the Superintendent or designated managers. Should the Board opt not to commit any fund balances, it will implicitly defer to the designees to make appropriate assignments.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- **Unassigned fund balance** - Represents amounts that are available for any purpose and have not been restricted, committed, or assigned for specific purposes. Positive amounts are reported only in the general fund.

The Board of Trustees establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. Assigned fund balance is established by the Superintendent or designated managers through adoption or amendment of the budget as intended for specific purposes.

When an expenditure is incurred for purposes for which both restricted and unrestricted net position/fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes of which amounts in any of those unrestricted fund balance classifications could be used, unless the Board of Trustees or designee's have provided otherwise in its commitment or assignment actions.

The level of adequacy for the general fund (unreserved) balance shall not be less than two months of operating expenditures. In addition, the fund balance for the debt service fund shall not be lower than 15 percent of the current year debt service requirements for the debt service fund.

13. Since Internal Service Funds support the operations of governmental funds, they are consolidated with the governmental funds in the governmental-wide financial statements. The expenditures of governmental funds that create the revenues of internal service funds are eliminated to avoid "grossing up" the revenues and expenses of the District as a whole.
14. The District sponsors self-insured plans to provide health care benefits to employees and their dependents. Revenues of this Internal Service Fund are received from both the District's governmental funds and premiums charged to employees. Expenses are comprised of claims incurred during the fiscal year, professional and contracted services and other miscellaneous expenses.

The General Fund is contingently liable for liabilities of this fund. Fund accounting is employed to maintain the integrity of the self-insurance activities of the District.

15. The Data Control Codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a Statewide data base for policy development and funding plans.

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

16. The District receives substantial amounts of funding from special revenue sources. The majority of this money is cost reimbursement to the District by the federal government or Texas Education Agency. The portion of revenue allowable for indirect cost is credited as revenue to the General Fund and as a reduction to revenue in the Special Revenue Fund, as appropriate. The indirect cost revenue is fully allocated to function 41 in the Statement of Activities as operating grants and contributions.
 17. In accordance with the Resource Guide, the District has adopted and installed an accounting system which meets at least the minimum requirements prescribed by the Texas State Board of Education and approved by the State Auditor. Specifically, the District's accounting system uses codes and the code structure presented in the Resource Guide. Mandatory codes are recorded in the order provided in the Resource Guide.
 18. Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to the property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.
 19. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.
- F. The District implemented GASB Statement No. 84, *Fiduciary Activities*, which establishes criteria for identifying fiduciary activities of all state and local governments.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position

Exhibit C-2 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net position for governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bonds payable, and the District's proportionate share of the net pension and OPEB liabilities are not due and payable in the current period and are not reported as liabilities in the funds.

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

Exhibit C-4 provides a reconciliation between the net changes in fund balance as shown on the governmental fund statement of revenues, expenditures, and changes in fund balances and the changes in net position of governmental activities as reported on the government-wide statement of activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements, but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements. This adjustment affects both the net position balance and the change in net position.

Other elements of the reconciliation on the Exhibit C-4 include recognizing property tax revenue considered available, recognizing accruals of interest on long-term debt and recognizing internal service fund activity. In addition, certain pension and OPEB expenditures are de-expended and the District recorded its proportionate share of the pension and OPEB expense. These adjustments are necessary to convert from the modified accrual basis of accounting to the full accrual basis of accounting.

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Data

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund and the Child Nutrition Program (which is included in the special revenue funds). The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget Schedule is presented in Exhibit G-1. The Child Nutrition Program and the Debt Service Budget Schedule are presented in Exhibits J-3 and J-4, respectively. The Board does not adopt a budget for special revenue funds since the budgets are designated by the grantor.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

1. The budget is prepared prior to June 20 for the next succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.
3. On June 23, 2020, the budget was legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year.
4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

Exhibit J-3 presents an unfavorable budget variance in Other (Uses) Placed in Escrow for Refunded Bonds account of (\$448,106); which was for interest accrued up to the date of issuance of the Unlimited Tax Refunding Bond Series 2020. The District budgeted for this amount as Bond Issuance Costs and Fees. Overall, the debt service fund budget reported a favorable budget variance of \$3,627,778.

TexPool is a local government investment pool in the State of Texas. The State Comptroller of Public Accounts oversees TexPool. There is also a TexPool Advisory Board, composed of participants, which advises on TexPool’s investment policy and approves fee increases. The Lone Star Investment Pool is a member owned, member-governed public funds investment pool. It is managed by an eleven member Board of Trustees and the Board is authorized to adopt and maintain bylaws. There is also an Advisory Board composed of participants that gathers and exchanges information from participants relating to the operation of the Pool. TexStar and LOGIC are investment pools created under the Inter-local Cooperation Act and are administered by First Southwest and JP Morgan Asset Management. Texas Class (Texas Cooperative Liquid Assets Securities System Trust) is a pooled investment program administered by the Public Trust Advisors, LLC. Texas Class is governed by the Board of Trustees which has appointed an Advisory Board composed of Participants and other persons who are qualified to advise the Trust. For those pools measured at amortized cost, management is not aware of the presence of any limitations or restrictions on withdrawals such as redemption notice periods, maximum transactions amounts, or the investment pool’s authority to impose liquidity fees or redemption gates.

B. Interfund Receivables and Payables

Interfund balances are the result of normal operations and are cleared out periodically. Management intends to pay out these balances within one year. Interfund balances at June 30, 2021 consisted of the following individual fund balances:

On July 29, 2020, the District issued Unlimited Tax Refunding Bonds, Taxable Series 2020 in the amount of \$20,454,627. The bonds and interest are payable on February 15 and August 15 of each year, commencing on February 15, 2021 and ending on February 15, 2038. The bonds were issued to refund portions of the Unlimited Tax Refunding Bonds Series 2013 and to pay the cost associated with the issuance sale of the bonds. As a result, \$20,495,000 of the 2013 Series bonds are considered to be defeased and not presented in these financial statements. The amount of defeased debt still outstanding at June 30, 2021 was \$20,495,000 and the related escrow balance was \$22,704,218. The refundings resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$1,503,054. This difference, reported in the accompanying financial statements in the deferred outflow of resources category, is amortized over the remaining life of the old debt bond using the straight line method. The refunding reduced future debt service costs (difference between cash flow to service old debt and that required for new debt) by \$3,833,340, and resulted in an economic gain (difference between the present values of the old and new debt service payments) of \$2,977,935.

I. Accumulated Unpaid Vacation and Sick Leave Benefits

Sick leave is available at the beginning of the year. The actual liability may increase or decrease due to teachers moving into and out of the district, and either using or accumulating more sick leave. Additionally, the Board of Trustees may change the District's policy with respect to accrued benefits.

Upon retirement or death of certain employees, the District pays any accrued sick leave and vacation leave in a lump cash payment to such employee or his/her estate. Individuals employed after October 1, 1985 are not eligible to receive the lump sum payments.

Only full-time support service personnel in assignments of 12 months of service are eligible for paid vacation. The number of paid vacation days an employee is entitled to depends upon the years of service.

A summary of changes in the accumulated sick leave and vacation liability follows:

	<u>Sick and Vacation Leave</u>

K. Defined Benefit Pension Plan

Plan Description: The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position: Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the internet at https://www.trs.texas.gov/TRS%20Documents/cafr_2020.pdf; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592.

Benefits Provided: TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

IV. DETAILED NOTES ON ALL FUNDS (Continued)

In May 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the state, participating employers and active employees to make the pension fund actuarially sound. This action causing the pension fund to be actuarially sound, allowed the legislature to approve funding for a 13th check in September 2019. All eligible members retired as of December 31, 2018 received an extra annuity check in either the matching amount of their monthly annuity or \$2,000, whichever was less.

Contributions: Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member’s annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS’ unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in this manner are determined by the System’s actuary.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee and employer contribution rates for fiscal years 2020 through 2025.

	<u>Contribution Rates</u>	
	<u>Plan Fiscal Year</u>	
	<u>2020</u>	<u>2021</u>
Member	7.7%	7.7%
Non-Employer Contributing Entity (State)	7.5%	7.5%
Employers	7.5%	7.5%

<u>Contributions Required and Made</u>	
2021 Employer Contributions	\$ 1,474,123
2021 Member Contributions	3,429,259
2020 Plan Year NECE On-Behalf Contributions (State)	2,359,938

Contributors to the plan include active members, employers, and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies, including TRS. In each respective role, the State contributes to the plan in accordance with State Statutes and the General Appropriations Act (GAA).

IV. DETAILED NOTES ON ALL FUNDS (Continued)

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50 percent of the state contribution rate for certain instructional or administrative employees; and 100 percent of the state contribution rate for all other employees.

Included in the employer contributions amount listed above for fiscal year 2021, the District paid \$562,545 for the Public Education Employer Contribution. The District did not pay retiree surcharges for fiscal year 2020. These two additional surcharges an employer is subject to are summarized as follows:

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- All public schools, charter schools and regional education service centers must contribute 1.5 percent of the member's salary beginning in fiscal year 2020, gradually increasing to 2 percent in fiscal year 2025.

Actuarial Assumptions: The actuarial valuation was performed as of August 31, 2019. Update procedures were used to roll forward the total pension liability to August 31, 2020. The actuarial methods and assumption used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2019. The total pension liability is determined by an annual actuarial valuation. The actuarial methods and assumptions were selected by the Board of Trustees based upon analysis and recommendations by the System's actuary. The Board of Trustees has sole authority to determine the actuarial assumptions used for the Plan. The actuarial methods and assumptions were primarily based on a study of actual experience for the three year period ending August 31, 2017 and were adopted in July 2018. The following table discloses the assumptions that were applied to this measurement period:

Valuation Date	August 31, 2019 rolled forward to August 31, 2020
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value

Mortality Assumption	The active mortality rates were based on 90 percent of RP 2014 Employee Mortality Tables for males and females with full generational mortality. The post-retirement mortality rates were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables with full generational projection using the ultimate improvement rates from the most recently published projection scale U-MP.
Long-term expected Investment Rate of Return	7.25%
Municipal Bond Rate as of August 2020	2.33%. Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index"
Last year ending August 31 in Projection Period (100 years)	2119
Inflation	2.30%
Salary Increases	3.05% to 9.05% including inflation
Ad hoc post-employment benefit changes	None

Discount Rate: A single discount rate used to measure the total pension liability was 7.25 percent. The single discount rate was based on the expected rate of return on pension plan investments of 7.25 percent. The projection of cash flows used to determine the discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the Legislature during the 2019 legislative session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return on pension plan investments is 7.25 percent and was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2020 are summarized below:

Discount Rate Sensitivity Analysis: The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (7.25%) in measuring the Net Pension Liability:

	1% Decrease 6.25%	Current Single Discount Rate 7.25%	1% Increase 8.25%
District's proportionate share of the net pension liability	\$ 29,274,555	\$ 18,985,016	\$ 10,624,991

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions: At June 30, 2021, the District reported a liability of \$18,985,016 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

The District's proportionate share of the collective net pension liability	\$ 18,985,016
State's proportionate share that is associated with the District	<u>30,633,266</u>
Total	<u><u>\$ 49,618,282</u></u>

The net pension liability was measured as of August 31, 2019 and rolled forward to August 31, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2019 through August 31, 2020.

At August 31, 2020 the employer's proportion of the collective net pension liability was 0.0354476083% which was a decrease of 0.0013116402% from its proportion measured as of August 31, 2019.

Changes since the Prior Actuarial Valuation: There were no changes in assumptions since the prior measurement date.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended June 30, 2021, the District recognized pension expense of \$3,684,502 and revenue of \$3,684,502 for support provided by the State.

The amount of pension expense recognized by the District in the reporting period was \$6,498,210.

L. Defined Other Post-Employment Benefit Plan

Plan Description: The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position: Detail information about the TRS-Care’s fiduciary net position is available in the separately-issued TRS Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the internet at https://www.trs.texas.gov/TRS%20Documents/cafr_2020.pdf; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592.

Benefits Provided: TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

Retiree and Spouse		529		689
Retiree or Surviving Spouse and Children		468		408
Retiree and Family		1,020		999

Contributions: Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based on active employee compensation. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state’s contribution rate which is 1.25 percent of the employee’s salary. Section 1575.203 establishes the active employee’s rate which is 0.65 percent of salary. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public or charter school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	<u>Contributions Rates</u>	
	<u>2020</u>	<u>2021</u>
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%

2021 Member Contributions	289,481	
2020 Plan Year NECE On-behalf Contributions (State)	498,548	

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to, regardless of whether or not they participate in the TRS-Care OPEB program. When employers hire a TRS retiree, employers are required to pay to TRS Care a monthly surcharge of \$535 per retiree. During the year ended June 30, 2021, the District did not employ TRS retirees and therefore did not pay any surcharge amounts to TRS-Care.

IV. DETAILED NOTES ON ALL FUNDS (Continued)

A supplemental appropriation was authorized by Senate Bill 1264 of the 86th Texas Legislature to provide \$2,208,137, for fiscal year 2020 and \$3,312,206 for fiscal year 2021, for consumer protections against medical and health care billing by certain out-of-network providers. Funding will be in fiscal year 2021.

House Bill 1, 86th Texas Legislature, Regular Session, 2019 provided an additional \$230 million to continue to support the program. The District's proportionate share of this amount totaled \$19,013, representing the 2 months July and August 2020 that overlap with the District's current fiscal year.

Actuarial Assumptions: The total OPEB liability (TOL) in the August 31, 2019 actuarial valuation was rolled forward to August 31, 2020 using update procedures. The actuarial valuation of TRS-Care is similar to the actuarial valuations performed for the pension plan, except that the OPEB valuation is more complex. All of the demographic assumptions, including rates of retirement, termination, and disability, and most of the economic assumptions, including general inflation and salary increases, used in the OPEB valuation were identical to those used in the respective TRS pension valuation. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The total OPEB liability in the August 31, 2019 actuarial valuation was determined using the actuarial assumptions below. Those assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2019 TRS pension actuarial valuation that was rolled forward to August 31, 2020:

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Salary Increases
Rates of Disability Incidence	

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2019 rolled forward to August 31, 2020
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	2.33% as of August 31, 2020
Salary Increases	3.05% to 9.05%, including inflation
Demographic Assumptions	The rates of mortality, retirement, termination and disability incidence are identical to the assumptions used to value the pension liabilities of TRS. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

IV. DETAILED NOTES ON ALL FUNDS (Continued)

Mortality Assumption	The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females, with full generational mortality using Scale BB. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published scale (“U-MP”).
Health Care Trend Rates	Initial medical trend rates of 9.00 percent for Medicare retirees and 7.3 percent for non-Medicare retirees. Initial prescription drug trend rate of 9.00 percent for all retirees. Initial trend rates decrease to an ultimate trend rate of 4.25 over a period of 13 years.
Election Rates	Normal Retirement: 65 percent participation prior to age 65 and 40 percent participation after age 65; 25 percent pre-65 retirees are assumed to discontinue coverage at age 65
Aging Factors	Based on plan specific experience.
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Other Information	
Ad hoc post-employment benefit changes	None
Notes	Assumption changes include a discount rate change from 2.63% as of August 31, 2019 to 2.33% as of August 31, 2020, lowering the participation rate assumption for employees who retire after the age of 65, and lowering the ultimate health care trend assumption to reflect the repeal of the excise (Cadillac) tax on high-cost employer health plans.

Discount Rate: A single discount rate of 2.33 percent was used to measure the total OPEB liability. There was a decrease of 0.30 percent in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to *not be able* to make all future benefit payments of current plan members. Therefore, the municipal bond rate was used for the long-term rate of return and was applied to all periods of projected benefit payments to determine the total OPEB liability.

The source of the municipal bond rate is the Fidelity “20-year Municipal GO AA Index” as of August 31, 2020 using the fixed-income municipal bonds with 20 years to maturity that include only federally tax exempt municipal bonds.

Discount Rate Sensitivity Analysis: The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used in measuring the Net OPEB Liability.

	1% Decrease in Discount Rate 1.33%	Current Single Discount Rate 2.33%	1% Increase in Discount Rate 3.33%
District’s proportionate share of the Net OPEB Liability:	\$ 22,267,314	\$ 18,556,130	\$ 15,624,828

Healthcare Cost Trend Rates Sensitivity Analysis: The following presents the Net OPEB Liability of the plan using the assumed healthcare cost trend rate, as well as what the Net OPEB Liability would be if it were calculated using a trend rate that is one-percentage point lower or one-percentage point higher than the assumed health-care cost trend rate:

	1% Decrease	Current Healthcare Trend Rate	1% Increase
District’s proportionate share of the Net OPEB Liability:	\$ 15,157,981	\$ 18,556,130	\$ 23,081,985

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs: At June 30, 2021, the District reported a liability of \$18,556,130 for its proportionate share of the TRS’s Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

The District’s proportionate share of the collective Net OPEB Liability	\$ 18,556,130
State’s proportionate share that is associated with the District	24,934,991
Total	\$ 43,491,121

The Net OPEB Liability was measured as of August 31, 2019 and rolled forward to August 31, 2020 and the Total OPEB liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer’s proportion of the Net OPEB Liability was based on the employer’s contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2019 through August 31, 2020.

IV. DETAILED NOTES ON ALL FUNDS (Continued)

At August 31, 2020 the employer’s proportion of the collective Net OPEB Liability was 0.0488132755%, which was a decrease of 0.0006219134% from its proportion measured as of August 31, 2019.

Changes Since the Prior Actuarial Valuation – The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- The discount rate changed from 2.63 percent as of August 31, 2019 to 2.33 percent as of August 31, 2020. This change increased the Total OPEB Liability.
- The participation rate for post-65 retirees was lowered from 50 percent to 40 percent. This change lowered the Total OPEB Liability.
- The ultimate health care trend rate assumption was lowered from 4.50 percent to 4.25 percent as a result of Congress’ repeal of the excise (Cadillac) tax on high-cost employer health plans in December 2019. This change lowered the Total OPEB Liability.

There were no changes to benefit terms that affected measurement of the Total OPEB liability during the measurement period.

For the year ended June 30, 2021, the District recognized OPEB expense of \$(173,139) and revenue of \$(173,139) for support provided by the State.

The amount of OPEB expense recognized by the District in the reporting period was \$(435,083).

At June 30, 2021, the District reported its proportionate share of the TRS’s deferred outflows of resources and deferred inflows of resources related to other post-employment benefits (OPEB) from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 971,592	\$ 8,492,234
Changes in actuarial assumptions	1,144,527	5,095,609
Difference between projected and actual investment earnings	6,030	-

The \$311,434 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2022. The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended June 30:	OPEB Expense Amount
2022	\$ (1,911,996)
2023	(1,912,802)
2024	(1,913,263)

2026	(1,417,496)
Thereafter	(2,462,045)
	\$ (11,530,739)

Changes in Net OPEB Liability:

	Beginning Balance	Additions	Reductions	Ending Balance
Net OPEB Liability	\$ 23,378,505	\$ -	\$ 4,822,375	\$ 18,556,130

Payable to the OPEB Plan: At June 30, 2021, the District reported a payable of \$55,570 to the OPEB plan for the outstanding amount of contractually required contributions related to past service costs. Member contributions included in this payable were \$24,291.

M. Rebatable Arbitrage

The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least five years. Arbitrage is evaluated and estimated on an annual basis by a third party. The company has estimated no liability for the District as of June 30, 2021.

N. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Board maintains insurance policies acquired from independent insurance carriers covering all structural property, automobiles, casualty and workers compensation. There have been no significant reductions in insurance coverage from prior years and settlements did not exceed insurance coverage.

For the year ended June 30, 2021, Canutillo Independent School District carried insurance for building, contents, and property in the amount of \$339,131,470 with deductibles ranging from \$1,000 to \$250,000 per occurrence. Casualty coverage is limited to \$2,000,000 general aggregate with deductibles ranging from \$1,000 to \$10,000. Automobile liability is limited to a combined single limit of \$1,000,000 with a \$500 deductible.

O. Health Care Coverage

During the year ended June 30, 2021, employees of the District were covered by the District’s medical self-insurance Plan (“the Plan”). The District contributed approximately \$623 per month per employee to the Plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependent’s health insurance coverage. Blue Cross Blue Shield of Texas is the third party administrator for the plan. Terms and provisions are included in the contractual provisions.

The District obtained excess loss insurance which limited annual claims paid from the Fund for the year ended June 30, 2021 to \$125,000 for any individual participant. There was no aggregate limit for the Fund.

Estimates of claims payable and of claims incurred but not reported (IBNR) at June 30, 2021, are reflected as accrued expenses of the fund. The plan is funded to discharge liabilities of the fund as they become due.

Changes in the balances of claims during the 2020-2021 year were as follows:

	2021	2020	2019
Unpaid claims, beginning of year	\$ 636,622	\$ 677,171	\$ 618,023
Incurred claims (including IBNRs)	5,427,215	5,180,247	5,575,035

P. Unemployment Compensation Pool

During the year ended June 30, 2021, Canutillo ISD provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund’s Unemployment Compensation Program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund meets its quarterly obligation to the Texas Workforce Commission. Expenses are accrued monthly until the quarterly payment has been made. Expenses can be reasonably estimated; therefore there is no need for specific or aggregate stop loss coverage for the Unemployment Compensation pool. For the year ended June 30, 2021, the Fund anticipates that Canutillo ISD has no additional liability beyond the contractual obligation for payment contribution.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund’s Board of Trustees in February of the following year. The Fund’s audited financial statements as of August 31, 2020, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

V. Construction and Other Significant Commitments and Contingencies

Construction Commitments

The District had an ongoing capital project under non-cancelable contract at June 30, 2021 for the CMS Wastewater Management. The amount paid to date is \$378,459 of which \$262,269 was capitalized in fiscal year 2020 and \$116,190 is included in the construction in progress balance. The remaining commitment for this project is \$1,057,093.

Federal and State Funding

Canutillo Independent School District participates in numerous state and federal programs that are subject to audit by the Texas Education Agency and various Federal and/or State audit agencies. These programs have complex compliance requirements, and should State or Federal auditors discover areas of material noncompliance, those District funds may be subject to refund if so determined by administrative audit review.

In the opinion of administration, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

W. Related Party Transactions

From time to time, the District may enter into transactions with related parties through the normal course of business. If a Board member has a conflict of interest, proper documentation is completed and he/she is required to abstain from any discussion or voting regarding the matter. Management is not aware of any material related party transactions that occurred during the 2020-2021 fiscal year.

X. Fund Balances

As of June 30, 2021, fund balances are composed of the following:

	General Fund	Debt Service Fund	Nonmajor Governmental Funds	Total Governmental Funds

Y. Encumbrances

Encumbrance accounting is employed as an extension of formal budgetary integration for the general fund, special revenue funds, and capital projects funds. At June 30, 2021, certain amounts which were previously restricted or assigned for specific purposes have been encumbered in the governmental funds. Significant encumbrances included in governmental fund balances are as follows:

	Encumbrances Included in:		
	Restricted Fund Balance	Assigned Fund Balance	Total
General Fund	\$ 488,171	\$ 1,469,622	\$ 1,957,793
Nonmajor Funds	27,342	-	27,342
Total	\$ 515,513	\$ 1,469,622	\$ 1,985,135

Z. School Health and Related Services (SHARS)

SHARS is a Medicaid financing program and allows local school districts to obtain Medicaid reimbursement for certain health-related services provided to students in special education. Since SHARS settle-up amounts are usually calculated and received or more in arrears, the district does not have adequate information to make an estimate of the receivable related to the current year on the government wide financial statements. However, the receivable and related revenues are recorded in the fiscal year the preliminary settle-up amounts are available, which is usually one year in arrears.

SHARS revenue recorded in the current period related to prior year's settle-up amounts was \$1,081,288.

AA. Subsequent Events

Subsequent events were evaluated through November 12, 2021, which is the date the financial statements were available to be issued.

AB. New Accounting Pronouncements

The District has not completed the process of evaluating the impact on its financial position that will result from adopting the following Governmental Accounting Standards Board (GASB) Statements:

- GASB No. 87, *Leases*, effective for fiscal years beginning after June 15, 2021. GASB No. 87 requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases.
- GASB No. 89, *Accounting for Interest Costs Incurred before the End of a Construction Period*, effective for fiscal years beginning after December 15, 2020. GASB No. 89 establishes accounting requirements for interest cost incurred before the end of a construction period.
- GASB No. 90, *Majority Equity Interests - an Amendment of GASB Statements No. 14 and No. 61*, effective for fiscal years beginning after December 15, 2019. GASB No. 90 modifies previous guidance for reporting a government's majority equity interest in legally separate organizations. This statement also provides guidance for reporting a component unit if a government acquires a 100 percent equity interest in that component unit.
- GASB No. 91, *Conduit Debt Obligations*, effective for periods beginning after December 15, 2021. GASB 91 provides a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with commitments extended by issuers, arrangements associated with conduit debt obligations and related note disclosures.
- GASB No. 92, *Omnibus*, effective for periods beginning after June 15, 2021. GASB No. 92 enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements.
- GASB No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for IRS Code Section 457 Deferred Compensation Plans*, effective for periods beginning after June 15, 2021. GASB No. 97 provides specific guidance related to (1) reporting of fiduciary component units that perform duties of a governing board; (2) narrows applicability of certain requirements from GASB No. 84 related to defined benefit pension and OPEB plans and; (3) specific guidance for Internal Revenue Code Section 457 plans that meet the definition of a pension plan and for benefits provided through those plans.

AC. COVID-19

As a result of the public health emergency related to the outbreak of COVID-19 in the United States, the Texas Education Agency has been awarded Coronavirus financial aid packages which are being distributed to the various school districts in Texas. Canutillo ISD received \$41,045 and \$1,196,100 in ESSER I funds and in Coronavirus Relief Fund Operation Connectivity Prior Purchase Reimbursement Program, respectively, for the 2020-2021 fiscal year.

ESSER II, Coronavirus Response and Relief Supplemental Appropriations (CRRSA), was published in June 2021 with a District allocation of \$5.6 million. ESSER II has a pre-award period starting March 2020 with the grant period ending in September 2022. TEA will supplant approximately \$832,713 of the ESSER II total for the hold harmless provision.

As of September 2, 2021, the Texas Education Agency (TEA) informed local education agencies (LEAs) that it has no plans to issue missed school day waivers due to COVID-19 during the 2021-2022 school year if the LEA or its campuses are closed. Each LEA will need to plan to make up time for school closures during the school year and may need to add additional instructional days and/or minutes to their calendar to meet the 75,600 operational minute requirement. As of the date of this report, the District has not had any missed school days due to COVID-19 and as such, has not determined the impact, if any, on the District.

AD. Prior Period Adjustment

For the student activity funds that met the criteria to be included as a fiduciary funds, the District re-evaluated the opening amounts of the "Due to Student Groups" in relation to GASB 84. As a result, these amounts were reclassified from "Due to Student Groups" to restricted net position in the custodial fund in the amount of \$109,547.

CANUTILLO INDEPENDENT SCHOOL DISTRICT

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION BUDGET AND ACTUAL GENERAL FUND

FOR THE YEAR ENDED JUNE 30, 2021

Budgets and Budgetary Accounting

Each school district in Texas is required by law to prepare annually a budget of anticipated revenues and expenditures for the General, National School Breakfast and Lunch Program, and Debt Service funds before the beginning of the fiscal year.

For fiscal years beginning July 1, the Texas Education Code requires the budget to be prepared not later than June 20 and adopted by June 30 of each year. The District's administration determines budgetary funding priorities and the budgets are prepared on the same basis of accounting that is used for reporting in accordance with generally accepted accounting principles. Final budget allocations are determined by the Board, which subsequently establishes a tax rate sufficient to support the approved budget in the General and Debt Service funds. The Child Nutrition Program appropriations are derived from the estimated meals expected to be served at the federal reimbursement rates plus anticipated program income. If the District has excess fund balance, appropriate measures are included in the adopted budget to spend down the fund balance to comply with fund balance requirements. The annual budget, which is prepared on the modified accrual basis of accounting, must be adopted by the Board at a scheduled meeting after giving ten days public notice of the meeting. The District annually adopts legally authorized appropriated budgets for the General, National School Breakfast and Lunch Program, and Debt Service funds. On June 23, 2020, the 2020-2021 budget was legally adopted by the Board.

The District's administration performs budget reviews during the year in which budget requirements are reevaluated and revisions are recommended to the Board. The Board must approve amendments to the budget at the fund and functional expenditure categories or revenue object accounts as defined by the TEA. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Several amendments were necessary during the year. However, none of these were significant.

Expenditures may not legally exceed budget appropriations, as amended, at the function level by fund. Unexpended appropriations lapse at year-end. The final amended budget is filed with the Texas Education Agency (TEA) through inclusion in the annual financial and compliance report.

Expenditures in Excess of Appropriations

During the fiscal year ended June 30, 2021, the District did not have any expenditures over appropriations in the General Fund.

TEACHER RETIREMENT SYSTEM OF TEXAS

FOR THE YEAR ENDED JUNE 30, 2021

Changes of Benefit Terms Since the Prior Measurement Period

There were no changes of benefit terms that affected measurement of the total OPEB liability during the measurement period.

Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- The discount rate changed from 2.63 percent as of August 31, 2019 to 2.33 percent as of August 31, 2020. This change increased the Total OPEB Liability.
- The participation rate for post-65 retirees was lowered from 50 percent to 40 percent. This change lowered the Total OPEB Liability.
- The ultimate health care trend rate assumption was lowered from 4.50 percent to 4.25 percent as a result of Congress' repeal of the excise (Cadillac) tax on high-cost employer health plans in December 2019. This change lowered the Total OPEB Liability.
- The primary reasons for this year's liability reduction related to the difference between expected and actual experience were due to (a) savings to the fully-insured Medicare Advantage premiums, which resulted from Congress' repeal of the Health Insurer Fee in December of 2019 and the vendor premium guarantees, and (b) favorable claims and rebate experience for the prescription drug benefits provided to Medicare retirees.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Trustees
Canutillo Independent School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Canutillo Independent School District, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Canutillo Independent School District's basic financial statements, and have issued our report thereon dated November 12, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Canutillo Independent School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Canutillo Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Canutillo Independent School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Canutillo Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON
COMPLIANCE FOR EACH MAJOR PROGRAM AND
ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees
Canutillo Independent School District

Report on Compliance for Each Major Federal Program

We have audited Canutillo Independent School District's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Canutillo Independent School District's major federal programs for the year ended June 30, 2021. Canutillo Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, Canutillo Independent School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of Canutillo Independent School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CANUTILLO INDEPENDENT SCHOOL DISTRICT

NOTES ON ACCOUNTING POLICIES FOR FEDERAL AWARDS

FOR THE YEAR ENDED JUNE 30, 2021

1. GENERAL

For all federal programs, the District uses the fund types specified in the Texas Education Agency's *Financial Accountability System Resource Guide*.

Special Revenue funds are used to account for resources restricted to, or committed for specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The accompanying schedule of expenditures of federal awards (the "schedule") includes the federal activity of the District under programs of the federal government for the year ended June 30, 2021. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

2. BASIS OF ACCOUNTING

Accounting and Financial Reporting - The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. Predominately, federal grant funds were accounted for in a Special Revenue Fund, a component of the Governmental Fund type, with the exception of the National School Lunch and Breakfast Program, SHARS, Child and Adult Care Food Program, Fresh and Vegetables Program, NSLP Equipment Assistance Grant, and Navy JROTC, which were accounted for in the General Fund. With this measurement focus, only current assets, deferred outflows of resources, current liabilities, and deferred inflows of resources generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance.

The modified accrual basis of accounting is used for the Governmental Fund Types. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which is recognized when due, and certain compensated absences, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. When grant funds are received before expenditures are made, they are recorded as unearned revenues until earned. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Due to the nature of the reporting process for the SHARS program, the District recognizes SHARS revenue upon receipt of the reimbursement notice from federal government.

NOTES ON ACCOUNTING POLICIES FOR FEDERAL AWARDS

FOR THE YEAR ENDED JUNE 30, 2021

2. BASIS OF ACCOUNTING (Continued)

In accordance with the Texas Education Agency’s (grantor) instructions, the District recognized pre-award costs on the ESSER II grant, Assistance Listing No. 84.425D, in an amount equal to the “Hold Harmless” calculation defined by the Texas Education Agency for this purpose.

Period of Performance - The period of performance for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 90 days beyond the federal project period ending date, in accordance with provisions in Section H, Period of Performance of Federal Funds, Part 3, OMB Compliance Supplement - July 2021.

Matching - To assist local education agencies in meeting match requirements for the Texas Education Agency/Region 4 Operation Connectivity Bulk-order, the El Paso County, Texas matched a total of \$39,188 for the District for the Coronavirus Relief Grant, Assistance Listing No. 21.019.

Program Income - The Child Nutrition Cluster generated program income in the amount of \$6,057 for the year ended June 30, 2021.

3. INDIRECT COST RATE

The District did not elect to use the 10% de minimis indirect cost rate but used the indirect cost rate assigned by Texas Education Agency.

The District accounted for federally funded indirect cost in the General Fund as follows:

Program Title	Federal Assistance Listing Number	Amount
ESEA, Title I, Part A - Improving Basic Programs	84.010A	\$ 85,269
ESEA, Title I, Part C - Migratory Children	84.011	8,396
